RE: Martin Pit 1-A, Permit No. M-1990-140, Inspection Problem Abated

Dear Mr. Duran:

On July 16, 2019 the Division of Reclamation, Mining, and Safety (Division) conducted an inspection of the above referenced site. Revegetation was cited as a problem for the presents of state listed noxious weeds. Corrective actions required implement the approved noxious weed management plan or revise the plan in the form of a technical revision by the corrective action date.

On September 26, 2019, the Division approved TR-2 revising the noxious weed management plan as well as photo documentation of weed treatments. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 303-866-3567 Ext 8183 or via email at amy.yeldell@state.co.us
