RE: M1979-058 Funk Hooker Pit Technical Revision

Dear Peter,

This letter is to serve as a request to extend the decision date on the Technical Revision that was submitted to your office on September 4, 2019.

In the September 4 submittal, Routt County requested a reduction in the mining boundary and requested a mining plan change in the TR. Per the TR narrative, the TR was precipitated by our agreement with the land owner and the adjacent mine being in our existing mining boundary. Since there are some conflicts between the two mines a meeting by your office is proposed for October 8, 2019, after the October 4 decision deadline.

Therefore, we are asking for an extension to the decision for the TR until after our meeting on October 8th when these issues can be cleared up during our onsite inspection.

Should you have any questions please do not hesitate to contact me.

Sincerely yours,

A handwritten signature in blue ink, appearing to read 'M. Mordi'.

Mike Mordi
Assistant Director
Routt County Road & Bridge
