**Re: Grisenti Farms Gravel Pit, Permit No. M-2001-005;  
Technical Revision (TR-4) Surety Increase Due**

Dear Mr. Schnabel:

On September 4, 2019 the Division of Reclamation, Mining and Safety approved Technical Revision application No. 4 (TR-04) and requested an additional financial warranty of \$12,400. We received a response letter dated September 5, 2019 from RPM, Inc on September 10<sup>th</sup> indicating the earthwork for TR-04 had been completed and pursuant to my September 5, 2019 telephone conversation with Bruce Humphries of RPM, Inc., the revised surety increase should be \$300, accounting for the completed earthwork. The RPM, Inc. letter stated DRMS would be provided with a cashier's check for \$300. We have not seen the check to date. Please provide the required \$300 increase to the existing financial warranty within 30 days (October 31, 2019).

If you have any questions or need further information, please contact me at (303) 866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
