Annual Report and Map

Legend

boundary

8. current_affected

15. top_soil

The map displays a large, irregular black boundary. Inside this boundary, there is a large area filled with pink diagonal hatching, representing '8. current_affected'. At the bottom of this pink area, there is a smaller, irregularly shaped area filled with yellow dots, representing '15. top_soil'. The pink area has a complex shape with several indentations and protrusions. The yellow dotted area is located at the southern edge of the pink area, following its general contour.

A horizontal scale bar with tick marks at 0, 0.0225, 0.045, and 0.09 Miles. The text '0', '0.0225', '0.045', and '0.09 Miles' is positioned above the corresponding tick marks.
