Louis and Nick -

Please let me know the status of your work on the renewal for the New Elk Mine (RN-07). For several weeks you have said that you would provide the updated operator information and send objections to the Division's Reclamation Cost Estimate. Please send those things today, or (if it will take a few days to complete those things), please send an extension request.

Thank you,  
Rob

Rob,

New Elk asks for an extension request until November 22, 2019. I am really hoping we can send the response this week, I am still waiting on signatures in Canada to make things official. As far as the RCE, I need to talk to Louis and get back to you.

Thanks,  
Nick

Thanks, Nick. We shall extend the RN-07 decision date to 11/22/2019. Please keep me posted on your progress. As I have said in the past, if you guys have a couple major items on the RCE that you think will reduce the cost, please let me know what they are. That way we can get the ball rolling on our response.
