RE: Annual Report M-1978-066

To Whom It May Concern:

The following annual report for M-1978-066, 10 South Pit, includes new disturbances of approximately 1.2 acres for the past year. A portion of the topsoil from the upper shelf is being moved into the bottom of the pit to make room for future mining. We continue to have this pit inspected and sprayed for noxious weeds by the local weed district.

Please contact me if there are any questions.
