RE: Sievers Pit, Permit No. M-1977-098, Inspection Problem Abated

Dear Mr. Burkey:

On June 25, 2019 the Division of Reclamation, Mining, and Safety (Division) conducted an inspection of the above referenced site. General compliance with mine plan was cited as a problem for having mined more than the maximum allowed disturbance under the approved mining plan. Corrective actions required you submit revise the mining plan in the form of a technical revision or complete reclamation by the corrective action date.

On October 23, 2019, the Division approved TR-4. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.
