**Re: Daniels Sand Pit 2, Permit No. M-1973-007-SG;  
Technical Revision (TR-08) Approval**

Dear Mr. Laroche:

October 28, 2019 the Division of Reclamation, Mining and Safety approved your Technical Revision application TR-8 for the Daniels Sand Pit 2 Permit No. M-1973-007-SG addressing the following:

*Grant utility easement to Security Water District for construction of water pipeline within the permit boundaries*

The terms of the Technical Revision No. 8 approved by the Division are hereby incorporated into Permit No. M-1973-007-SG. All other conditions and requirements of Permit No. M-1973-007-SG remain in full force and effect.

The Division has reviewed the change associated with TR-08 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
