Re: Permit No. M-1980-244; Cripple Creek & Victor Gold Mining Company; Cresson Project; Technical Revision 118 – VLF 2 Phase 2, Second Adequacy Review Response

Dear Mr. Cazier:

On October 29, 2019 Newmont Goldcorp Corporation - Cripple Creek and Victor Gold Mining Company (CC&V) received the Division of Reclamation, Mining and Safety's (DRMS) Second Adequacy Review of Technical Revision (TR) No.118. Below, DRMS's comment is noted in italics followed by CC&V's response in bold.

Phase 2A Part 2 Record of Construction Report (TR 118) Adequacy Review No. 1:

Report:

2. Section 4 Project Deviations: Please address the following:

- a. Grading changes and ROC drawings. The Response is not adequate. There is a discrepancy between what is stated in the first bullet: "The grading changes were minor and presented in the Record of Construction Drawings" and what is presented in the Record of Construction drawings. Your response indicates these grading changes are minor and not reflected in the ROC drawings, yet the revised report still states these changes are shown in the ROC drawings. Please provide a report and drawings that are consistent.***

Page 14 of the report has been updated and is enclosed with this response.
