**RE: Schwartzwalder Mine, Permit No. M-1977-300, Technical Revision No. 29 (TR-29),
Adequacy Review No. 1**

Mr. Harrington:

On November 5, 2019, the Division of Reclamation, Mining and Safety (Division) received your Technical Revision application (TR-29) for the Schwartzwalder Mine, Permit No. M-1977-300. The requested revision addresses the following:

Removal of monitoring wells MW-1, MW-2, MW-3A, and MW-9 to ensure that the surrounding contaminated alluvial soils are appropriately excavated.

The Division has identified the following adequacy item that must be addressed before an approval of TR-29 can be issued:

- 1) Please include an updated groundwater monitoring locations map for the site (last revised with TR-27 approval on 1/17/2019), which reflects the changes proposed in this revision.

The decision date for TR-29 is currently set for **December 5, 2019**. If additional time is needed to address any adequacy items, an extension request must be received by our Office prior to the decision date.

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Sincerely,

Amy Eschberger
Environmental Protection Specialist
