**Re: Routt County Road & Bridge, Funk & Hooker Pit, File No. M-1979-058,  
Technical Revision No. 2 (TR-02) Second Adequacy Review**

Mr. Mordi,

The Division of Reclamation, Mining and Safety (Division/DRMS) reviewed the content of the technical revision (TR-02) adequacy response submitted on November 6, 2019 for the Funk & Hooker Pit and submits the following comments. The Division is required to make an approval or denial decision no later than January 6, 2020 therefore; a response to the following adequacy review concerns should be submitted to the Division as soon as possible.

1. The Operator submitted a revised Reclamation Plan map for technical revision no. 2 (TR-02) indicating a revised permit boundary which removed the additional area east of the current permit boundary as proposed in the original technical revision submittal. Please provide a revised technical revision cover letter explaining the proposed revised revisions to the existing Mining and Reclamation Plans.
2. The original technical revision no. 2 (TR-02) submittal included Mining Plan maps with revised phasing. Please provide a revised Mining Plan map indicating the entire permit boundary for the proposed revised permit boundary excluding the additional area east of the current permit boundary. Additionally, please provide detail maps depicting the revised mining phases.

If you have any questions, please contact me at [peter.hays@state.co.us](mailto:peter.hays@state.co.us) or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays  
Environmental Protection Specialist

Ec: Jared Ebert, DRMS
