**Re: Harry Corkle Construction; Corkle Construction Pit #2; Permit No. M-2011-033
Request for Final Release Request (SL-02); Weather Delay**

Mr. Corkle,

The Division received the final performance and financial warranties release request (SL-02) for the Corkle Construction Pit #2, Permit No. M-2011-033, on September 30, 2019.

The Division conducted the required release request inspection on November 5, 2019. However, due to the existing weather conditions the Division was unable to issue a decision on the release request. The decision must be postponed until it is feasible for the Division to observe the site vegetation without snow cover and determine if reclamation was performed in accordance with the approved Reclamation Plan.

The Division will inspect the site as soon as weather conditions allow to evaluate the site reclamation, tentatively scheduled for June 2, 2020 or as soon as possible.

If you have any questions, please contact me at peter.hays@state.co.us or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays
