RE: Daniels Sand Pit 2, M1973007SG, TR-09 Extension Request

Dear Mr. Cazier:

The purpose of this letter is to request an extension to respond to the Division's Preliminary Adequacy Review letter for TR-09 dated November 26, 2019, for Daniels Sand Pit 2. The response date was December 9, 2019, and I am requesting an extension to February 9, 2020.

Last week I informed you that a surveyor is scheduled to be at Daniels this week to survey "Cross Section D-4 (Fountain Mutual Ditch above New Wash Pond to the south)." The survey is needed for a geotechnical design for a proposed stability berm on the north side of the New Wash Pond. We also need time to coordinate a schedule for mitigation plans as outlined in the above referenced letter (Appendix A , #2).

Thank you for considering this request. If you have any questions, please feel free to call me at 719-491-0288.

Sincerely,

A handwritten signature in blue ink that reads "Andre Laroche".
