**RE: East Wolf Creek Pit - File No. M-2011-038,  
Surety Release Request Application (SL-1)**

Dear Winer:

On December 17, 2019, the Division of Reclamation, Mining and Safety received your 111 Construction Materials Reclamation Permit Surety Release Request application for the East Wolf Creek Pit, which is located in Mineral County. Preliminary review of the information received determined that the additional information must be received before the Division can consider your application complete and technical review can begin. Thus, your application is incomplete for the purposes of filing as of December 20, 2019.

*The Operator must submit a request that meets the process requirements of Rule 4.17. Rule 4.17 states the request must be sent via **certified mail, include the address and phone number of all owners of property and such request shall state that the operator has achieved all requirements of the approved reclamation plan.***

The Division did not receive the request via certified mail. The names and addresses of the landowners are not the current landowner.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you have any questions, please contact me.

Sincerely,

Stephanie J. Mitchell  
Environmental Protection Specialist
