Re: Gold Hill Mill, Permit No. M-1994-117, Receipt of Corrective Action, Water Monitoring Data

Mr. Bynum:

On December 31, 2019, the Division of Reclamation, Mining and Safety (Division) received your Corrective Action regarding the problem identified in the Division's December 16, 2019 letter. The status of the Corrective Action associated with this problem is as follows:

Corrective Action: The operator submitted the required quarterly water monitoring data for the Gold Hill Mill for the period of 4th quarter 2016 through 3rd quarter 2019.

Corrective Action Status: The Division considers the problem to be abated. However, for future submittals, please be sure the monitoring data for this site is separated from data collected for the Cash & Who Do Mines, a separate permit (M-1983-141), so the documents can be added to the appropriate permit file.

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Sincerely,

Amy Eschberger
Environmental Protection Specialist
