Re: May Day Idaho Mine Complex, Revision Denial, Permit No. M-1981-185, Technical Revision Denial, Revision No. TR-9

Dear Ms. Glinatsis:

On October 2, 2019 the Division of Reclamation, Mining and Safety received your request for a Technical Revision to Permit No. M-1981-185, the May Day Idaho Mine Complex, addressing the following:

- *Removal of the Ball Mill from the May Day 1 area and miscellaneous equipment from the Base of Operations Area*

During the review process, an adequacy review dated October 8, 2019 outlined the items required to render a decision. The extended due date to submit these items was Friday January 3, 2019. The required items were not submitted, therefore on January 8, 2020 the Division has **denied** your Technical Revision.

If you have any questions, please feel free to contact me at the Division's Grand Junction Field Office, by phone at 303-866-3567 Ext. 8187 or by email at lucas.west@state.co.us.

Sincerely,

Lucas J. West
Environmental Protection Specialist
