Re: CAM Colorado, LLC, Fruita Loadout  
2019 Annual Reclamation Report  
Permit No. C-2010-088

Dear Mr. Wein:

On behalf of CAM Colorado, LLC, this letter shall serve as is its 2019 Annual Reclamation Report.

No surface disturbance occurred at the Fruita Loadout during calendar year 2019. The permit for the Fruita Loadout was approved during the first quarter of 2012, however construction of the loadout has been delayed. The loadout will be constructed after the McClane Canyon Mine obtains a coal sales contract or after another mine expresses an interest in using the loadout. Neither event is expected to occur in the foreseeable future.

Since there has been no surface disturbance at the Fruita Loadout, a map is not deemed necessary and therefore not attached.

Please call with any questions.

Sincerely,

*Tamme Bishop*

Tamme Bishop, P.E.
