Louis –

I am following up on my recent letter (dated 13 January 2020) pertaining to the New Elk Quarterly Sediment Pond Inspection Reports for 2019. In that letter I asked for additional documentation on your staff's MSHA training. While that would be helpful, I have an additional requirement. Per Rule 4.05.9(14), at least once a year the inspections need to be performed by a Professional Engineer or qualified professional under the direction of a PE.

Let me know if you have any questions.

Thanks,

Rob
