RE: Flag Creek Mine, Permit # M-1997-098, TR-02 Adequacy Review (1)

Mrs. Hybarger:

The Division of Reclamation, Mining and Safety (Division) is in receipt of your request for Technical Revision (TR-02), which proposes construction of a new section of access road to replace a portion of the upper reach of existing access road which is deemed unsafe due to steepness. During review of the material submitted, the Division identified the following items to be addressed before the Division can approve TR-02:

1. Please state whether or not the new section of road is intended to be permanent and will remain after reclamation.
2. Please provide a letter signed by the landowner authorizing construction of the new section of road on the property, and authorizing the road to remain after reclamation.

If you require additional information, or have questions or concerns, please contact me at the Division's Grand Junction Field Office.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dustin Czapla', is positioned below the word 'Sincerely,'.
