RE: Daniels Sand Pit 2, M1973007SG, TR-09 Extension Request

Dear Mr. Cazier:

The purpose of this letter is to request a second extension to respond to the Division's Preliminary Adequacy Review letter for TR-09 dated November 26, 2019, for Daniels Sand Pit 2. The response date on the prior extension request was February 9, 2020, and I am requesting an extension to April 9, 2020.

The reason for the extension request is that the new fines pond has been frozen in the area where our surveyor needs to float an unmanned remote control boat to complete a bathymetric survey. The survey is needed for a geotechnical design for a proposed stability berm. Attached please find photos of icing on the new fines pond.

Thank you for considering this request. If you have any questions, please feel free to contact me at 719-491-0288.

Sincerely,

A handwritten signature in blue ink that reads "Andre Laroche".
