Re: Annual Hydrology and Reclamation Report  
Keenesburg Mine Site  
Permit C-1981-028

Dear Mr Zuber:

Coors Energy Company is submitting, for your review and approval, two copies of the Annual Hydrology and Reclamation Report for the year 2019. We are also providing you with an extra set of the maps. Note: The number of copies submitted is consistent with the requests of previous reclamation specialists who have worked with us at the Keenesburg site. If you wish additional copies of any of these materials, please let us know.

The 2019 Annual Hydrology and Reclamation Report follows the same format that has been used in previous years. This will allow for comparison to earlier documents, and thus facilitate the review process.

Should you have any questions, or wish to discuss the report contents, please contact us at 303 927-3680.

Sincerely,

A handwritten signature in blue ink, which appears to read "B. Moline", is positioned below the word "Sincerely,".

Benjamin Moline  
Senior Manager, Water Resources &  
Environmental Compliance

Additional copies to:

Hazardous Materials & Waste Management Div.  
Colorado Department of Public Health & Environment

Mr. Troy Swain
