RE: Annual Report M-1981-207  
Blue Pit

Mining has continued west in past year in areas previously stripped of topsoil and over burden. No new reclamation has occurred. We continue to receive inert import fill materials from local site excavation for future reclamation of slopes. Approximately 2 acres has been graveled on western section of area for staging. No topsoil or overburden has been removed.

A handwritten signature in blue ink, appearing to read "S Mello", is positioned above the printed name and title.
