RE: Raymond Mine, File No. M-2020-013 , 110(2) Application Adequacy Review (1)

Mr. Wilkinson:

The Division of Reclamation, Mining and Safety (Division) is in the process of reviewing the above referenced application in order to ensure that it adequately satisfies the requirements of the Colorado Mined Land Reclamation Act (Act) and the associated Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations (Rules). During review of the material submitted, the Division determined that the following issue(s) of concern shall be adequately addressed before the application can be considered for approval.

1. Please provide latitude and longitude coordinates for each of the four mining areas.
2. The application states that water samples taken from Gold Creek, upstream, at the portal and downstream of the mine have been analyzed. Please provide the water sample analysis results to our office for review.
3. Please describe in further detail water quality monitoring that will occur during the life of mine, including sampling frequency and analytes. Please include a statement of commitment to provide water quality data to the Division each year with your annual report.
4. The application states that waste rock is considered to be inert. Please provide information to the Division that was used to determine that waste rock produced during the operation will be inert.
5. Please provide the anticipated constructed dimensions for the three portals and one raise proposed to be reopened during this operation.
6. Pursuant to Rule 6.3.4 (2), please provide an estimate of the actual costs to reclaim the site based on what it would cost the State of Colorado using an independent contractor to complete reclamation.

Please submit your response(s) to the above listed issue(s) by Friday, March 06, 2020.

The Division will continue to review your application and will contact you if additional information is needed.

If you require additional information, or have questions or concerns, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dustin Czapla', with a long horizontal flourish extending to the right.
