Re: Raymond Mine, M-2020-013, Limited Impact 110(2) Application, Extension of Decision Date

Dear Mr. Czapla,

CRG Mining is working toward providing all the required technical adequacy information you have asked us to submit. However there is still an outstanding item that we will be unable to provide before the decision date, which are the results of the rock testing we have ordered from the lab.

Those results are probably at least two weeks away. Though we will forward the results to you promptly, at this time we must request an extension of the Division's decision date.

We would like to request that the date is extended another 30 days from the present decision date.

Please let me know if you have any questions.

Sincerely,

Jake Wilkinson
Manager, CRG Mining LLC
