M-1987-019  
South Fork Pit

Annual Report

Changes made in 2019

No new changes occurred to the pit in the past year. The footprint remains the same and limited product was hauled from the site. We anticipate applying for a 112 permit in the future as we have nearly reached our limits with our current permit.

Inspections for weeds continues to be done by the RGC Weed District using approved control and mitigation methods.

Respectfully,

Patrick Sullivan  
Road Supervisor  
Rio Grande County
