***RE: The Pride of America Mine, Permit No. M-1999-058, Technical Revision (TR-06)
Approval***

Mr. Treves:

The Division of Reclamation, Mining and Safety (Division) has approved the Technical Revision request (TR-06), which was received by the Division on March 24, 2020, and addresses the following:

Relocation of the main fueling area, primary generators and associated fuel storage and containment, to the Franklin Pad area.

TR-06 is approved with the following condition:

Water sampling will occur at the sump on a monthly basis. Samples shall be analyzed for diesel and BTEX constituents. Water quality lab results shall be submitted to the Division each year as an attachment to your annual report. If elevated levels are noted in any of the monthly samples you shall notify the Division immediately. Sampling frequency shall not be reduced or ceased without prior written authorization from the Division.

The terms of TR-06 approved by the Division are hereby incorporated into Permit No. M-1999-058. All other conditions and requirements of the permit remain in full force and effect.

If you require additional information, or have questions or concerns, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dustin Czapla'.
