Re: AZCO Pit, Permit No. M-2004-029, Technical Revision Approval, Revision No. TR-1

Dear Mr. Walker:

On March 10, 2020 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on February 11, 2020, addressing the following:

Clarify permit boundary, revise grading and seeding

The terms of the Technical Revision No. 1 approved by the Division are hereby incorporated into Permit No. M-2004-029. All other conditions and requirements of Permit No. M-2004-029 remain in full force and effect.

The DRMS has reviewed the change associated with TR-01 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier, P.E.
Environmental Protection Specialist III
