**Re: Climax Molybdenum Company; Henderson Mine; File No. M-1977-342;  
Technical Revision No. 31 (TR-31); Additional 3-Dam Seepwater Return Line Clean-out  
Ports, As-Built Drawings and Engineering Certification Adequacy Review**

Ms. Parmet,

The Division of Reclamation, Mining and Safety (Division/DRMS) reviewed the content of as-built drawings and engineering certification for the Additional 3-Dam Seepwater Return Line Clean-out Ports, Technical Revision No. 32 (TR-31), received on March 20, 2020 and submits the following comments.

1. The As-Built Drawings and Engineering Certification dated September 3, 2019 and October 31, 2019, respectively, were not stamped, signed and dated by a Professional Engineer. Please provide copies of the as-built drawings and engineering certification with the required professional engineer stamp, signature and date for Technical Revision No. 31.

If you have any questions, please contact me at [peter.hays@state.co.us](mailto:peter.hays@state.co.us) or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays  
Environmental Protection Specialist
