RE: Midwestern Farms, Permit No. M-1993-059, Approval of Technical Revision No. 7 (TR-7)

Mr. Tempel:

On April 3, 2020, the Division of Reclamation, Mining and Safety (Division) approved your Technical Revision application (TR-7) submitted to the Division on March 17, 2020, addressing the following:

CPW would like to revise the approved reclamation plan to add a permanent boat ramp, dock, restroom, and gravel parking area on the southwest side of the lake in accordance with the approved recreational post-mining land use. CPW also wishes to revise the approved seed mix for the southern and southeastern edges of the lake to a more wildlife-friendly mix including switchgrass and yellow indian grass in accordance with the approved wildlife habitat post-mining land use and CPW's wildlife plan.

The terms of the Technical Revision No. 7 approved by the Division are hereby incorporated into Permit No. M-1993-059. All other conditions and requirements of Permit No. M-1993-059 remain in full force and effect.

The Division determined that no additional financial warranty is required for this permit revision as the changes to the reclamation plan reflect existing conditions that will remain for reclamation.

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Sincerely,

Amy Eschberger
