**RE: Timnath Pit (Permit No. M-1989-056)  
Annual Groundwater Reports**

Dear Mr. Kehn:

The annual report for the Timnath Pit was submitted to the Division of Reclamation, Mining and Safety on February 11, 2020. Question #21 of the report asks if there is a requirement to submit monitoring information annually. The reply to this question was marked 'N/A'. After reviewing the permit to verify the answer, three items were noted that need to be addressed:

1. A commitment was made by Don Kehn Construction in September 1994 to monitor the water level in 3 wells quarterly, and submit the monitoring reports to DRMS annually. A review of the annual reports shows that the well monitoring data has not been submitted to the Division for 2017, 2018 and 2019. Please submit the well monitoring data for these years,
2. The last Substitute Water Supply plan for the Timnath Pit that the Division has on record expired on February 29, 2020. Please submit a copy of an updated SWSP.
3. In an adequacy response letter of May 17, 1994, Don Kehn Construction committed to obtaining and providing proof to the Division that a NPDES permit and a Stormwater Discharge Permit and Management Plan have been approved. The Division does not have a record showing that these permits have been obtained and approved. Please submit copies of these permits to comply with the commitments.

If you have any questions, please contact me at (303) 866-3567 ext. 8142 or [brock.bowles@state.co.us](mailto:brock.bowles@state.co.us).

Sincerely,

Brock Bowles
