To whom it may concern:

I am writing to oppose the drilling and water usage in the Grape creek area.

What a tragic idea that because it's there we should ruin public lands and destroy ecosystems to selfishly gain minerals that can be extracted else where.

Try asking a private land owner the right to drill and use their water for mining purposes and you will get a resounding No way! So since public land belong to all of us which means me, I'm giving a resounding NO to my "Portion" of the Grape Creek riparian area and surrounding ecosystem.
