Re: Bowie Resources, LLC, Bowie No. 2 Mine  
MR-203 Adequacy No. 2  
Permit C-1996-083

Dear Mr. Zuber:

On behalf of Bowie Resources, LLC, (BRL), enclosed is adequacy response #2 in response to questions listed in DRMS' adequacy letter dated March 25, 2020.

**1. DRMS:** Regarding the compilation of all right of entry information into one location:

- a. Please submit, as part of this MR, all of the relevant pages, with a cover sheet, as Exhibit 25. Also, indicate what pages in the current PAP need to be deleted from other exhibits. This will avoid confusion while updating the PAP.
- b. Exhibit 25 appears to be on page vi rather than page v, as stated in letter. Which is correct?

**BRL:** Please see attached Exhibit 25 including cover sheet. The TOC for Exhibit 25 should be page vi. There are no other pages that should be deleted in other exhibits that would cause confusion with the new Exhibit 25.

**2. DRMS:** Stover and Associates did not completely answer the request to confirm to the Division that the Bowie No. 2 Mine PAP contains all of the information necessary to describe BRL's right to enter all applicable lands. I am simply asking BRL to state that the proposed Exhibit 25 is comprehensive and encompasses all necessary agreements with landowners.

**BRL:** The PAP contains all the information necessary to describe BRLs right to enter all applicable lands. BRL is still interested in selling portions of their land, but when and if that times comes, new Access Agreements will be drafted and incorporated into exhibit 25.

Please let me know if you have any additional questions.

Sincerely,

*Tamme Bishop*

Tamme Bishop, P.E.

Project Engineer
