Thank you for listening to my concerns about opening Grape Creek to gold exploration – reference permit #P2013002. I'm so disappointed that the status of Grape Creek's Wilderness Study Area was totally ignored. This is a special place with wilderness characteristics, characteristics that would be preserved if Protect America's Wilderness Act which was passed by the house on 2/12 were to be passed by the Senate. The inclusion of Grape Creek in this Wilderness bill illustrates the unsuitability of the plans of Zephyr Minerals. Much is at stake here including some of the most pristine wild lands, "unique desert riparian resources" (according to the BLM) and habitat for bighorn sheep. Please reject this callous use of natural resources we cannot easily restore.

Wild Gratitude,

Suez Jacobson
