

Pinon Ridge Mining moved from temporary status to active status on June 2019. The following activities took place at the West Sunday Mine:

- Electrical utilities were restored to the substations/shop building, and SW1 and SW2 ventilation fans.
- Opening of West Sunday Portal, and rehab the decline.
- Exploratory drilling and mining of ore.
- Ore pad construction.
- Storm water repairs to drainage ditches and retention ponds.
- Weed spraying was performed at the mine and access roads.
- Minor building repairs.
