I am a resident of Dawson Ranch and am concerned about the destruction of the mountains that surround our lovely area.

The noise, the dust and traffic would be undesirable. This could lead to a drop in property values. This is a more elite area in our city.

Many are concerned because of the closeness to our homes. Zephyr has mentioned it would use Helicopters Daily to transfer employees to the sites. This is highly undesirable! Most of us are retired people and enjoy the serene and quiet area we have. Helicopters would be a terrible intrusion!

On top of this, we fear they are just an exploration company and will sell to an actual mining company eliminating any promises they told us.

Respectfully,

Betty Pottorff
