Hello Camille, Ginny, Lauren, and Tim,

I have noticed this morning and continuing into this afternoon that there is an EXTREME amount of trucks carrying aggregate out of the Snyder Quarry (Castle Concrete) on Black Canyon Rd. in Colorado Springs. This quarry is technically abandoned, but it's absolutely amazing how many trucks are driving out of this property right now. In 19 minutes I videoed 12 loaded trucks departing the quarry. The trucks were not apparently owned by Castle Concrete, as all were identified with different company names like ZDS Enterprises, Selke, Hazelton, McCarthy, Stuck, Altitude, All Purpose, etc., etc. I suspect something illegal is going on, either orchestrated by Castle – or that Castle itself is currently be robbed.

I will not contact Castle as they may be the perpetrators, not the victims. Please investigate this immediately, and also please advise me if my videos are of value.

Kirby Hughes
