## CHEMICAL DATA APPLICATION FORM

Date of Application	May 12, 2019	Date Form sent to Client	May 12, 2019
Time of Application	11:00 AM	Air Temperature	66 °
Wind Speed	3 - 5 mph	Wind Direction	N - NE
Customer Name	City of Arvada		
Customer Address	8101 Ralston Road Arvada, CO 80002		
Location of Application	Pioneer North parcel		
Type of Application	Kawasaki Mule – Boom & Handgun spray		
Target pest/s	Diffuse Knapweed, Scotch & Canada Thistles, Dalmation Toadflax, Mullein and Hoary Cress		
Site, Crop, Structure or Commodity Treated	Commercial		
Pesticides Applied	Hi-Dep, Escort XP		
EPA Reg. #	2217-703, 432-1549		
Amount of Pesticide	1 Qt, 1 Oz	Amount of Dilutant	10 Gals
Size of Area Treated	32.5 Acres	Amount of Mixture applied	325 Gals
Re-entry Interval	When Dry		
Name of Water in Proximity to Treatment Area	None		
Visual Monitoring Notes	Area's are monitored 6 – 10 times annually		
Other Notes	Treated copious amounts of Knapweed rosettes, Toadflax, Thistle and Mullein as well as several patches of Hoary Cress in the NW section of the Pioneer parcel. For future reference we will use the map marked with 4 red circles and call the NW circle Area 1, the SW circle will be Area 2, the NE smallest circle Area 3 and the SE circle Area 4. So the majority of area treated today was in and around Area 1 including along the entire W boundary fence that borders the Model Airpark road as well as areas S & W of Areas 1 & 2. NOTE: While we did not venture into the recently treated Prairie Dog area, we did observe at least 8 - 10 Prairie Dogs still running around in this area.

## CHEMICAL DATA APPLICATION FORM

Date of Application	Oct. 15, 2019	Date Form sent to Client	Oct. 15, 2019
Time of Application	11:20 AM	Air Temperature	50 °
Wind Speed	3 - 5 mph	Wind Direction	S - SE
Customer Name	City of Arvada		
Customer Address	8101 Ralston Road Arvada, CO 80002		
Location of Application	Pioneer North parcel		
Type of Application	Kawasaki Mule – Boom & Handgun spray		
Target pest/s	Diffuse Knapweed, Canada Thistles, Dalmation Toadflax, Common Mullein and Bindweed.		
Site, Crop, Structure or Commodity Treated	Commercial		
Pesticides Applied	Hi-Dep, Escort XP		
EPA Reg. #	2217-703, 432-1549		
Amount of Pesticide	1 Qt, 1 Oz	Amount of Dilutant	10 Gals
Size of Area Treated	32.5 Acres	Amount of Mixture applied	325 Gals
Re-entry Interval	When Dry		
Name of Water in Proximity to Treatment Area	None		
Visual Monitoring Notes	Area's are monitored 6 – 10 times annually		
Other Notes	Treated areas in the Central E and Central W areas of the parcel for copious amounts of Knapweed Rosettes, a fair amount of Mullein rosettes scattered about as well as a few areas with Thistles and a few Dalmation Toadflax. Treated both sides of main road from Water Tank to an area just S of retail yard and along both sides of Model Airpark road for lots of Knapweed and Mullein as well as some Bindweed. Areas C, B, E and F per the report maps (Area 2 including surrounding areas in 5/2019 map noted with 4 red circles). Since it has been so very dry we were pleased to be able to access areas that are usually too wet to drive into.
