**COMMENTS:** The applicant has requested a partial acreage release for 1.485 acres located along the eastern boundary of the Larimer Pit. The land area to be released consists of a parking lot, drainage swale, and pedestrian trail available for public use via an easement granted to the City of Loveland. The area proposed to be released has been fenced off from the rest of the mining area. Approximately 255.55 acres will remain within the mining permit boundary.

This office has no concerns regarding the requested partial acreage release. The Division of Reclamation, Mining and Safety and/or the applicant may contact the State Engineer's Office with any questions.
