**Re: Climax Molybdenum Company, Henderson Mine, Permit No. M-1977-342, Amendment Approval,
Revision No. AM-07**

Mr. Hamarat:

On May 4, 2020 the Division of Reclamation, Mining and Safety (Division/DRMS) approved the amendment application (AM-07) submitted to the Division on May 9, 2019, addressing the following:

Updated affected land boundary to include:

- URAD wastewater treatment plant
- Footprint of the water conveyance pipeline
- 50-foot buffer north of mine site and to the east of the development rock stockpiles
- The subsidence area at the top of Red Mountain

The terms of the Amendment No. 7 approved by the Division are hereby incorporated into Permit No. M-1977-342. All other conditions and requirements of Permit No. M-1977-342 remain in full force and effect. The approved amendment application replaces and supersedes TR-06 for the Water Treatment Facility in Urad Valley submitted on August 29, 1996.

Please provide an updated Performance Warranty for the amended reclamation permit. The Performance Warranty form can be found on our website at <http://mining.state.co.us/Forms/Pages/WarrantyForms.aspx>.
