Good morning Tim

The only comment my Board had on this permit was to make sure the topsoil is being protected, which they are probably trying to do their best with. Have a good rest of your week!!

Thanks!!

Debbie Mitchell

Subject: Re: Fremont Conservation District

Hi Debbie,

They are proposing to expand their affected area to layback the highwall on the SW side, incorporate an area on the NE side where we cited them for pushing topsoil outside the permit boundary, and it looks like adding a pit on the south end of their property (I'm still reviewing the application, but that's what is showing up on Exhibit F-1, reclamation map). It's in our online documents if you want to check it out. Just put in the permit number (without dashes - M1977247), click on the "Doc Date" column header twice and that will sort it in chronological order, newest documents first. If you need help, just give me a call.

Good afternoon Tim

We have received Notice that Coaldale Quarry – File No. M-1977-247, Holcim (US) Inc. has filed an application for an Amendment, but it really doesn't state what they are amending. If you have further information on this, can you please let me know so I can forward this to my Board for any comments or concerns that they may have. Hope you are well!!!

Thanks!!
