Mr. Russell,

As we discussed this afternoon, on behalf of Mr. Chris Pyles, owner of the Gillette Sand and Gravel Co., we request a 30-day extension from the May 14, 2020 due date for our response to the above-referenced Adequacy Review. We need additional time to review technical details in our response. Our extension request is from May 14, 2020 to June 4, 2020.

Please let me know if this extension is acceptable, and please contact me if you require any additional information.

Best Regards,

Brendan
