**Re: Pikeview Quarry, Permit No. M-1977-211;  
Technical Revision (TR-20) Preliminary Adequacy Review**

Dear Mr. Schnabel:

The Division of Reclamation, Mining and Safety (DRMS) received a request for a Technical Revision (TR-20) addressing the following:

*Add recreation as a post mining land use*

The submittal was called complete for the purpose of filing on May 13, 2020. The **decision date for TR-20 is June 12, 2020**. Please be advised that if you are unable to satisfactorily address any concerns identified in this review before the decision date, **it will be your responsibility to request an extension of the review period**. If there are outstanding issues that have not been adequately addressed prior to the end of the review period, and no extension has been requested, the Division may deny this Technical Revision.

The following comment is based on the DRMS review of the request for TR-20:

- 1) AM-04 Application, p. 4: Item 12 asks for the primary post-mine land use (PMLU). As this site is proposed to have a dual PMLU and the purpose of this TR is to "Add" a PMLU, please resubmit page 4 with both "Wildlife Habitat(WL)" and "Recreation(RC)" boxes checked.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
