RE: Larimer Pit, Permit No. M-1974-069, Technical Revision Approval, Revision No. TR-3

Mr. Fancher:

On May 21, 2020, the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application (TR-3) filed with the Division on April 24, 2020, addressing the following:

Revise reclamation plan and mining and reclamation plan maps to reflect revised permit boundary proposed in AR-3, and existing conditions at the site, including final mining cell sizes (with demonstration of compliance with DWR for amount of exposed groundwater to remain).

The terms of the Technical Revision No. 3 approved by the Division are hereby incorporated into Permit No. M-1974-069. All other conditions and requirements of Permit No. M-1974-069 remain in full force and effect.

In its review of TR-3, the Division determined the required financial warranty for the site to be in the amount of \$583,931.00, which is \$37,131.00 more than the currently held amount of \$546,800.00. Due to the revised required financial warranty being less than the Division's initial calculated amount, per the Surety Increase (SI-2) issued on March 24, 2020, SI-2 is considered vacated and a separate notice of surety increase will be issued with the revised amount. You will have 60 days from the date of the new notice to post the additional required financial warranty.

If you have any questions, you may contact me by telephone at (303) 866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Sincerely,

Amy Eschberger
