**Re: Cresson Project, Permit M-1980-244 Notice of Addendum Receipt;
Technical Revision TR-103 – Addendum Acceptance**

Dear Ms. Harmon:

On May 18, 2020, the Division of Reclamation, Mining and Safety discussed your Addendum to our approved Technical Revision **TR-103** via telephone with your staff. CC&V personnel explained the purpose of the Addendum was to provide explicit clarification that when placing material with a diameter greater than 3 inches, it is allowed to increase the lift height to 100 feet as long as it is advancing ore stacking over existing ore and not against drain cover fill (DCF). The Division accepts this addendum.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.
