**Re: Cresson Project, Permit No. M-1980-244;
Technical Revision Approval, Revision No. TR-121**

Dear Ms. Harmon:

On June 3, 2020 the Division of Reclamation, Mining and Safety (DRMS) received your emailed response to our second adequacy letter. The Division has reviewed your responses and approved the Technical Revision application addressing the following:

75 foot increase to the approved backfill elevation of the WHEX pit, and a lateral, 80 million ton storage increase of the ECOSA

The terms of the Technical Revision No. 121 approved by the DRMS are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The DRMS has reviewed the change associated with TR-121 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$959,887.00, last adjusted with the approval of SA-02 on November 12, 2019. If you have any questions or need further information, please contact me at (303) 866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.
