Dear Mrs. Amy:

CEMEX Inc. is writing to you concerning the Adequacy Review of Dowe Flats Mine, Permit No. M-1993-041, Technical Revision No. 4 (TR-04). First above, we greatly appreciate everything you have done thus far to accommodate our requests for extension. Given the complexity of this estimate and the fact that CEMEX is concurrently reviewing some technical issues such determining the real compactions and swell factors on the fill material; we are requesting a 60-day extension (from June 6th, 2020) allowing us more time to review and discuss in detail the bond estimate.

Please let me know if this is a possibility on your end. Again, thank you for the accommodation you have shown us, as well as your consideration for this request.

Sincerely,

**Cita Cisse**
