Hi Leigh -

I'm trying to track down revisions to Mountain Coal's West Elk application, but am having a very difficult time finding things on the laserfische site. Would it be possible to get a copy from you of the most recent version of Section 2.03.6? Also, what is the best way to track down most recent updates as applications are revised? Thank you.

Jeremy

Jeremy,

Here is a direct link to the currently approved section 2.03 of the Permit Application Packet:

<https://dnrweblink.state.co.us/drms/0/doc/1265352/Page1.aspx?searchid=bf0d5818-e0b0-42ab-95c5-3e8266c03826>

To find the most recently revised sections of the PAP, first go to the laserfische weblink, select the "DRMS Permit Index" template, enter the permit number, and select "permit file" from the IBM Index Class Name dropdown menu:

COLORADO
Division of Reclamation,
Mining and Safety
Department of Natural Resources

Template

Template

DRMS Permit Index

Permit No

c1980007

IBM Index Class Name

Permit File

Doc Date

from

to

Doc Name Note

Doc Name

For the West Elk mine you'll see 44 pages of results, with 20 results on each page - this constitutes the currently approved PAP.

Double click on any column header to sort by that column - the Doc Date column will be best for your needs.

Let me know if you have any further trouble.
