**Re: Florence Sand & Gravel Pit, Permit No. M-1992-051, Technical Revision Approval, Revision No. TR-2**

Dear Mr. Langston:

On June 15, 2020 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on May 28, 2020, addressing the following:

*Allow for the import of clean earthen fill material from an offsite construction project*

The terms of the Technical Revision No. 2 approved by the Division are hereby incorporated into Permit No. M-1992-051. All other conditions and requirements of Permit No. M-1992-051 remain in full force and effect.

The DRMS has reviewed the change associated with TR-02 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions, please contact me.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
