Ms. Tabettha Lynch
Colorado Division of Reclamation, Mining, and Safety
1313 Sherman St. Room 215
Denver CO. 80203

**RE: Williams Fork Land Company
Notice of Intent No. X-2017-234-02
Coal Exploration 180 Day Report – July 2020**

Dear Ms. Tabettha Lynch,

In accordance with Rule 2.02.6(3)(a) of the Regulations of the Colorado Mined Land Reclamation Board for Coal Mining, adopted in accordance with the Colorado Surface Mining Act, C. R. S. 34-33-101 et. seq. a Coal Exploration 180 day report is being submitted.

A total of 3 drill holes were drilled in 2018. All 3 drill holes have been abandoned, reclaimed and seeded. Each drill hole was abandoned immediately and prior to moving onto the next drill site. All three sites were re-seeded in September of 2019. All three sites were re-seeded in May of 2020.

All roads constructed to access these sites have been reclaimed and seeded.

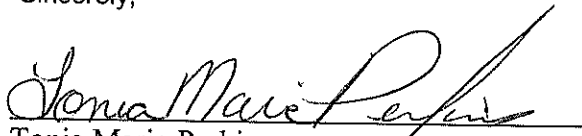

A map has been attached to show the location of the 3 drill sites and the roads that were constructed.

Currently there are no drill rigs or test equipment on site.

There is an attachment describing the location of the 3 drill holes and which ones have been drilled, sealed, regraded, topsoiled, seeded and re-seeded.

Please contact me if you have any questions.

Sincerely,

Tonia Marie Perkins
Senior Mining Engineer

COLORADO DIVISION OF RECLAMATION, MINING AND SAFETY

COAL EXPLORATION 180-DAY REPORT

Prospector: Williams Fork Land Company

Notice of Intent No.: X-2017-234-02

Address: P.O. Box 187

Project Name: West Panel State Expansion

Craig, CO 81625

County: Moffat

Date: June 25, 2020

This report is filed in accordance with Rule 2.02.6(3)(a) of the Regulations of the Colorado Mined Land Reclamation Board for Coal Mining, adopted in accordance with the Colorado Surface Coal Mining Act, C.R.S. 34-33-101 *et seq.* The purpose of this report is to update the Division on exploration and reclamation activities that have occurred in the past 180 days of active prospecting. The report also indicates any changes in operations from what was stated in the original Notice of Intent sent to the Division. The Operator may use this form, modify this form, or use a different format altogether.

1. Attach a map that shows:
 - a) Which proposed holes have been drilled at the date,
 - b) Any actual or proposed relocations of holes,
 - c) The extent of all significant road construction completed to date (exclude minor blade work), and
 - d) Current location of all drill rigs and test equipment.
2. Describe what and where reclamation activities have occurred in the past 180 days. Mention sealing and plugging, regrading, retopsoiling and reseeding activities. (Attach additional pages, if needed.)

Refer to Attachment

-
-
3. List any additional changes to the original prospecting and reclamation plan or any unexpected problems (such as unexpected water or artesian conditions encountered). (Attach additional pages, if needed.)
-
-
-

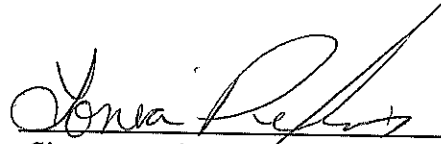

4. When do you expect to complete all exploration and reclamation activities for this project?
October 2021

5. Does the prospector wish this report to be considered confidential? See Rule 2.02.7(2). No If yes, attach a justification for the request.

6. Additional Comments:
