Subject: Keenesburg Mine, Adequacy review for TR-47  
Date: July 8, 2020

Janet –

I want to request your help reviewing TR-47 for the Keenesburg Mine, permit number C-1981-028. As you know, the subject of this TR relates to the standard for re-vegetation success in the Keenesburg Mine PAP, and I would greatly appreciate your expertise.

I found Coors Energy's application complete today, and the adequacy deadline date is August 7, 2020. Please let me know if you have the time to review this TR.

Thanks,  
Rob
